ECE INDIA ENERGIES PRIVATE LIMITED

Founded in 2010 by Amit Arokar, ECE India Energies Pvt. Ltd. began in a small room in Amravati with a vision to revolutionize solar PV module manufacturing in India. In 2018, it launched its first 100 MW manufacturing unit, “ECE Solar Panel, Desh Ka Panel.” Since then, ECE has grown significantly, employing 500 people directly and 2,000 indirectly, with a goal of reaching 1,000 direct employees by 2026. With a strong network of 200 channel partners and distributors, ECE has powered 35,000 solar homes, 2,000 industries, and 15,000 solar pumps, securing its position among India’s top 10 PV module suppliers. The company holds six technology patents focused on improving solar panel efficiency, durability, and performance, reinforcing its leadership in innovation. Beyond business, ECE India Foundation actively supports women’s employment and community development initiatives. As the company expands with a new 2 GW facility and continues its research in solar technology, it remains committed to making renewable energy more accessible. With relentless innovation and a mission to harness solar power for a better tomorrow, ECE is playing a key role in shaping India’s clean energy future.
